## GET A LIFT

Give the passenger boards on your 2018 and newer Honda Gold Wing a lift with these CNC-finished forged board risers from Big Bike Parts (\$199.95). The risers, which are easy to install with all hardware included, replace the OEM mounts with new two-piece adjustable mounts that move the boards out 7/8-inch and raise them 1 1/4, 2 or 2 3/4 inches. With an attractive silver finish, these risers will complement the look of your Wing and make it more comfortable for your passenger. **Call (712) 234-3336 or visit [bigbikeparts.com](http://bigbikeparts.com)**

## UNDER CONTROL

Get easy, plug-and-play installation and control of accessory lights and horns on your KTM 790 Duke, 790 Adventure, 1290 Super Duke/GT, 1090 and 1190 Adventure and 1290 Super Adventure, with the new Denali CANsmart Controller (\$259). Simply connect the CANsmart Controller to your KTM's diagnostic port to access more than 35 programmable accessory settings, and you can even control those accessories from the bike's original switchgear. **Call (401) 360-2550 or visit [denalielectronics.com](http://denalielectronics.com)**

## LOOKING GOOD

Look good on and off the bike and stay protected with the M16 riding shoes from Fly Racing. With a crush- and oil-resistant sole, composite shank, removable insoles, reinforced toe and heel boxes and dual-density ankle protectors on both sides, the M16s may look like regular shoes but they're built to ride. Choose from a black waxed-leather version with Hydraguard waterproof membrane (\$119.95) or a cool two-tone gray canvas non-waterproof version (\$109.95). **See your dealer or visit [flyracing.com](http://flyracing.com)**

## LIKE A GLOVE

Ride in comfort in Lee Parks Design's Sumo R gloves (\$224.95). These supple gloves are made of black elk skin on the dorsal (back) side and tan deerskin on the ventral (palm) side, with an added layer of deerskin on the heel of the palm and a wide 5-inch gauntlet. Knuckles and fingers are reinforced with thermoplastic rubber, and the thumb and index fingers of both gloves feature capacitive touch pads, allowing the use of smartphones without removing your gloves. **Call (844) 317-9244 or visit [leeparksdesign.com](http://leeparksdesign.com)**
