

Moshe K. Levy Rider's Workshop

Jim Ford is an accomplished pilot, and brings this unique perspective to mastering the challenging physical aspects of learning to ride competently. Jim guides students in the very personal process of tuning in to "flow," the mental state in which a person is fully immersed in the moment, with complete focus.

Dunlop Sportmax Roadsmart III Tires

My tires must be durable enough to survive a 107-mile daily commute, soft enough to handle twisty backroads, and provide stellar grip in all weather conditions. Roadsmart IIIs are the best and longest lasting tire I've ever tested, approaching 18,000 miles, and handily beating prior Michelin and Metzeler rubber.

Cornering Confidence by Jon DelVecchio

This book dives into the meat and potatoes of competent motorcycling, by directly addressing areas that most riders could stand to improve in, including mental confidence, body positioning, smoothness, throttle control, braking and cornering. Straightforward and entertaining, it's the perfect cure to winter blues.

Helite Turtle 2 Vest

Separation of bike and rider pulls a tethered ripcord. A compressed air canister hidden in the front of the vest deploys in a split second, creating a protective, curved "shell" from the base of the helmet to the bottom of the spine. The area is fully immobilized. Hi-Viz Yellow.
